Hi Wendy.

Thank you for forwarding this to the Emergency Operations Center for follow-up. I have not responded back to Carly Parker (below).

Thank you,

-m

Dear Ms. Reichmuth, for spills of heavy metals, one very effective solution is adding water hyacinth, cattails and bales of barley to the water. It does work. You guys need to be seen to be stopping your hand-wringing and doing something.

Don't just sit there and let the hogs eat you. Regards, Caryl Parker.
